### DESCRIPTION OF HISTORY AND PHILOSOPHY:

Tuthilltown Spirits is located at the Tuthilltown Gristmill, a National Historic site in Gardiner, NY. Heralding the revival of the microdistillery in New York, Tuthilltown specializes in small-batch spirits distilled from local Hudson Valley products. All whiskeys and vodkas are hand-crafted, hand-bottled and hand-labeled to ensure the best expression of quality and personality. Working with local farmers, they have created such fine products as vodka from fresh apples, corn whiskey, single- and four-grain bourbon, as well as the first New York rye since the repeal of Prohibition. The distillery makes use of traditional pot distilling methods producing artisan spirits one batch at a time. Each bottle hand filled, capped, waxed and numbered one at a time. The distillery is as green as possible, using the steam from the distillation process to heat the facility and has recently installed a reed bed water purification system for liquid waste.
